

August 15, 2011

To whom it may concern,

For over 5 years, Mr. Raj Lingam has been performing repairs and maintenance services for the Golden West Fruit Company. Raj has incredible knowledge in forklifts and general machinery repairs. He has been extremely responsive to our needs, and many times, we have asked him to complete the repairs during the evening hours and/or over the weekend.

I consider Raj to be an expert in the field of forklifts. He has a broad knowledge base of most forklifts and can easily handle mechanical, hydraulic and electrical issues.

We have recently negotiated with Raj to handle our preventative maintenance program, which will include everything from performing the needed maintenance to properly documenting the work done.

I have thoroughly enjoyed working with Raj and would highly recommend him as the "go to guy" in your repair and maintenance needs.

Sincerely,

Andrew J. Jariabka  
General Manager
